

26. June 2012

Challenges in SCM for a Global Player in the Manufacturing Industry

SupplyOn EXECUTIVE SUMMIT 2012
Michael Kaps
Manager Supply Chain, ITT Corporation

ITT worldwide

Interconnect Solutions

Products

ITT products make it possible to connect with our electronic world, with connectors and contacts that perform in harsh-environment, power and deep space applications.

Customers

Customers in aerospace, industrial, oil and gas, medical, handheld electronics, alternative energy and transportation markets.

Our Claim

Delight the customer!

ITT ambition: On-time delivery

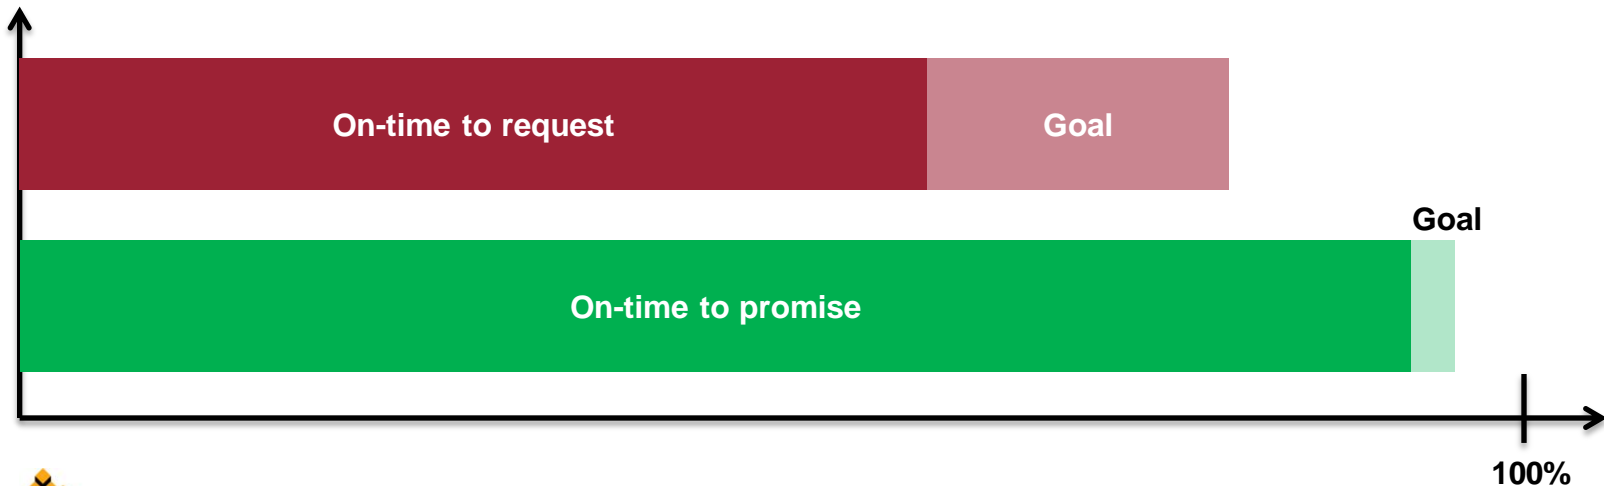

1. On-time to promise: 92 percent ▶ Goal: 95 percent

due to comprehensive internal process improvement during the last 10 years: Kaizen, lean production processes, etc.

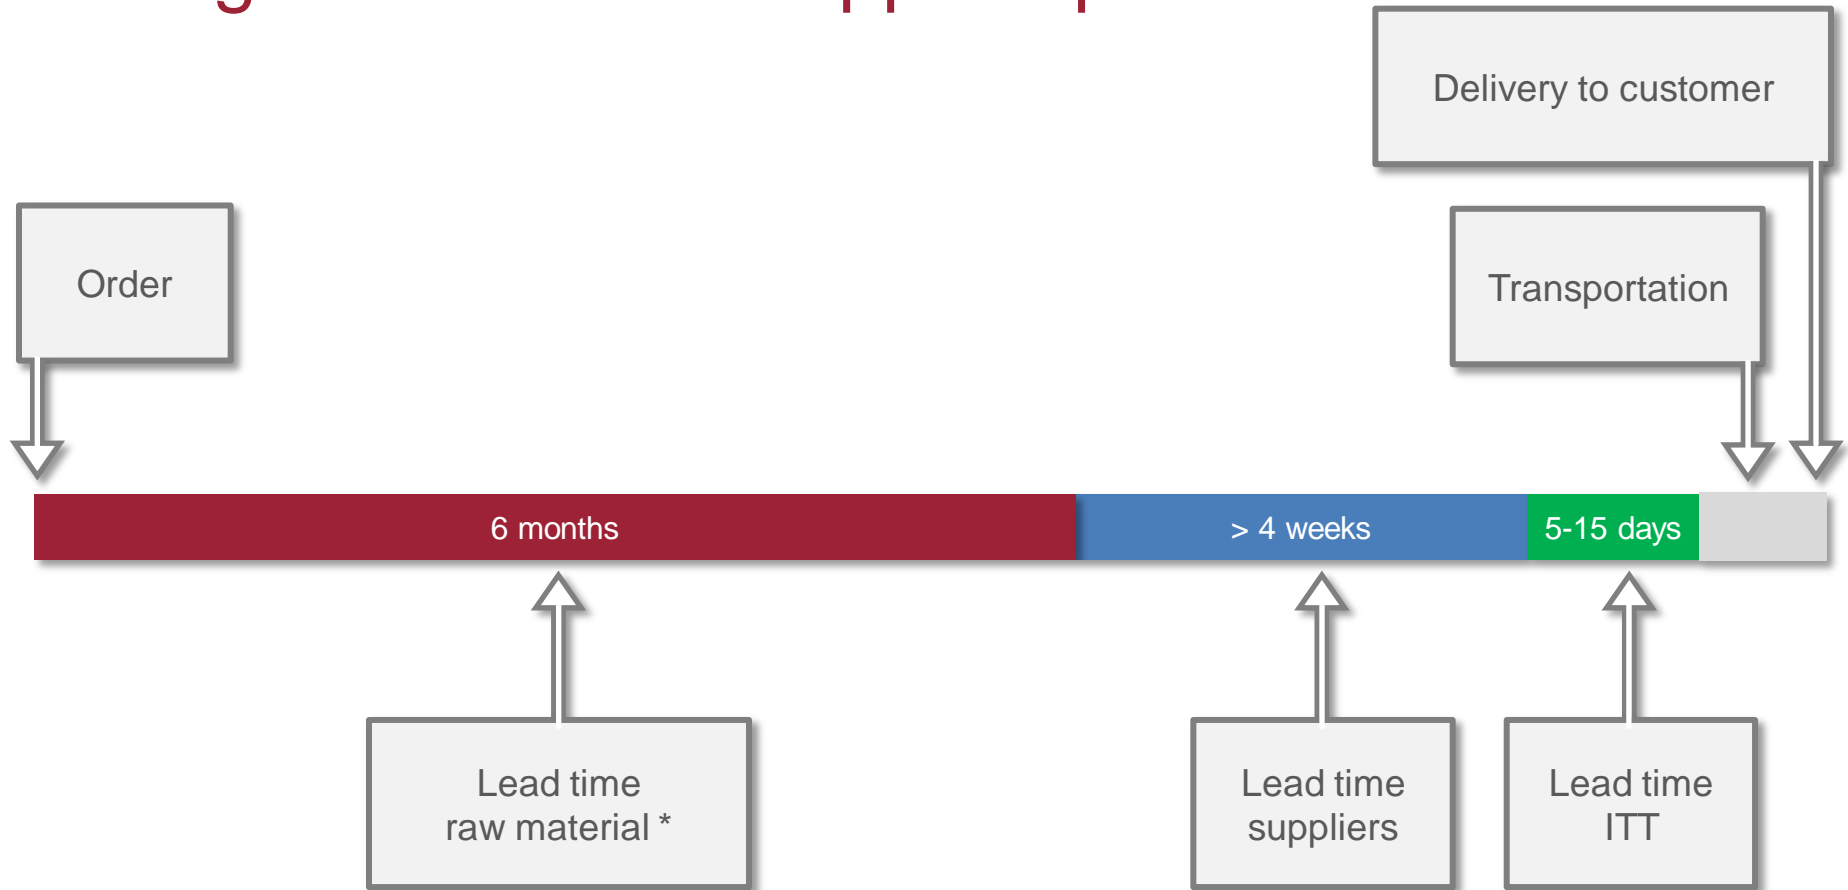

2. On-time to request: 60 percent ▶ Goal: 80 percent

due to very long lead times of suppliers

Challenge No. 1: Long lead times of supplied parts

* Long lead time of raw material due to highly sophisticated materials (mainly synthetic granules and metal alloys)
